Your blood is 82 percent water and your red blood cells have the important function of carrying oxygen to all the other cells in your body.

[Dr. Darren Weissman](#), author of *"The Power of Infinite Love and Gratitude, An Evolutionary Journey to Awakening Your Spirit"*, is the developer of The LifeLine TechniqueTM. This advanced holistic system discovers, interprets and releases the root cause of physical symptoms and stress - emotions trapped within the subconscious mind. Once the root cause is identified, it is harmonized and released, *freeing your body, mind and spirit to heal.*

Live Blood Cell Analysis

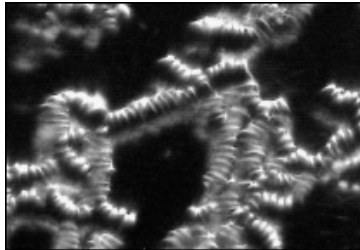

Dr. Weissman's experiments with red blood cells before and after The LifeLine Technique™ show the same amazing results that Dr. Emoto found with water.

Red blood cells under a dark cell microscope before & after a LifeLine Technique™ Session.

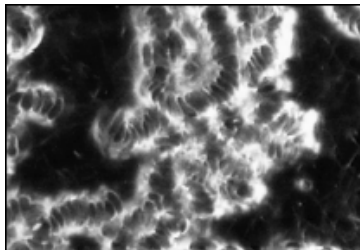

Before: Rouleaux formation is when red blood cells are stacked upon one another. Since red blood cells carry oxygen that must get to every area of your body effortlessly, the rouleaux formation inhibits this.

After: Red blood cells are free flowing so that oxygen can freely flow throughout your body.

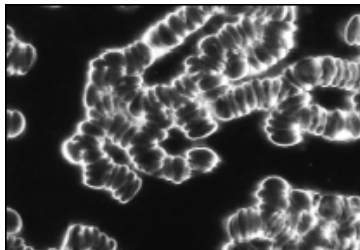

Blood Cells Before

A 9 year-old boy with symptoms of severe migraine headaches.

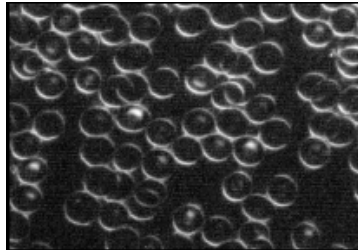

A 41 year-old woman diagnosed with breast cancer.

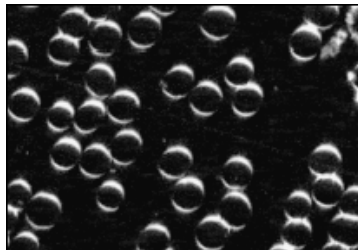

A 42 year-old man with symptoms of acid reflux.

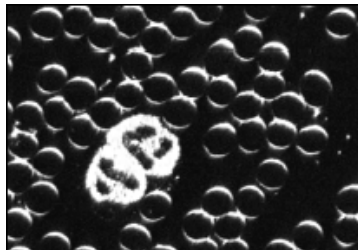

Blood Cells After

Using the power of Infinite Love & Gratitude, released subconscious feelings of internalized anger toward his parents because of their divorce.

Using the power of Infinite Love & Gratitude, released subconscious feelings of depression associated with being emotionally and verbally abused by her husband.

Using the power of Infinite Love & Gratitude, released subconscious thoughts of shame related to a family situation.
